*The President*

**Message from the President,**

To all parliamentarians and diplomats, to the representatives of the Member States and their delegates.  
A cordial regard and thanks to those who shared their passion and love for the continuation of the historical and institutional World Parliament. From the appointment of the new presidency passed a year, among difficulties, burdened with various tasks and problems that emerged in the months, and that no one expected. The Presidential Council has accepted the onerous task to continue the political, diplomatic, organizational and administrative activity. Unfortunately there were some dissidents and troublemakers who tried illegally to take possession of the goods of IPSP and subvert the rehabilitation and innovation programs of the Organization, solely for personal interests. Nevertheless, the Presidential Council was able to be right against these small destroyers. It was discovered that a limited number of members acted with fraudulent activity, through falsification of documents and sale of passports, others cashed sums of money illegally in the name and on behalf of the Parliament. Other member with important institutional positions in the PM used to collect funds from complacent governments to realize destabilizing politics at the expense of some governments in the name of IPSP. In summary we found all kind of actions at the expense of the former President Mons. Busà and the current Presidency. For the protection and morality of all members and the same PM they have been expelled.

Even with extreme difficulty rehabilitation programs of IPSP had been initiated, among these, the reconstruction of the archives, the reactivation of contacts with members, the new composition of the political-diplomatic offices, the establishment of operational offices: the representation office in Roma and institutional office in NYC., many sleepless nights and sacrifices were made for the future of IPSP, the purchase of tools for the realization of the new passports and the purchase of passport booklets. This presidency has not received anything of the of President Busà properties, there is a trial in the Court of Palermo to obtain them. The offices of government had been renovated, the formation of new committees yet to be defined, the dozens of contacts with the new members, the realization of the new statute, the democratization of the Organization, the Swiss registration for the acquisition of the status of International Legal Personality. As already mentioned, members not serious and fraudulent were expelled, those who did not realize political and diplomatic activities. Several consents and approvals are arriving from various continents, by states and institutions for the change and innovation that we are putting in place and in line with the directives of the UN and the European Parliament.

Despite having experienced difficulties and obstructionism by some dissidents and troublemakers we were able to continue on the path traced by the former President, Mon. Viktor Busà. The interventions made by the President Eugenio Lai were various, among them, the US President H.E. Barack Obama has been involved, H.E. Vladimir Putin, President of the Russian Federation, the Presidents and Rulers of countries like Kuwait, Qatar, Emirates, Saudi Arabia, Iran, Turkey, Lebanon, Egypt, the President of the European Commission and the European Parliament, for the construction of a lasting peace. The President urges the members of good will to awake their spirit of cooperation and passion for the IPSP and for the future projects for peace, security and the rights of Peoples.

**All the best wishes for Happy Holidays and a bright 2015.**

**The President**  
H.E. Eugenio Lai
