Excellencies,

this is motivated by great personal and populations concerns.

What happens in Europe, in African countries and all around the World has a gravity unsustainable and unacceptable. Human exodus which is pouring into the Europe highlights gravity and suffering of the people involved. Peoples Nations besieged and involved in the war and extreme poverty, forcing their people to leave their belongings, even to save as forced by threats and circumstances.

After thousands years another dramatic mass exodus is repeating, already experienced in the past and mentioned in the scriptures.

Everything is going to work and fault by the human, greedy for power, riches, of unspeakable cruelty and international disregard.

Hundred of thousand men, women, childrens, young and old, fathers and desperate mothers attempt to save themselves and their children, venturing into other countries, without certainty, just to get a piece of bread and ensure the survival of their dear.

It's humans who have lost their dignity, humiliating himself in search of extreme sensitivity and humanity by the other people.

As a human being in order to save himself would not do the same thing?

We have to remember the mass deportations during the last World War, these had discontinue after planting to land more than 7 million of crosses. Too late, unfortunately, the International Community has intervened.

To make end the madness and wickedness of a powerful nucleus, not of men but wild beasts, with no heart and no feelings and without honor, who have murdered and killed more than 7 million

humans, squandering enormous economic and financial resources in military equipments for entire cities, territories and invaluable assets destruction.

It has estimated that with the money go up in smoke in the last World War, a new Africa might have been built, educating populations to produce for growth and live without war.

Influential rulers maybe are understanding now that, if it isn't remedied, if it doesn't stop the war that is raging from years in critical areas of Africa, Asia Minor and the gates of Europe, the exodus will not end, but will exponentially increase in coming years.

The mass migration of peoples is going to weaken and impoverish their countries bringing them back more than 30 or 40 years.

What is happening in this modern age, there isn't a civilization and a good relations which everyone wants, but the abominable result of a world system isn't working.

Friction and misunderstandings prevalent in countries with armed warfare and economic which has destabilized North Africa, Asia Minor, and other areas of planet.

It is necessary to awake consciences of all human beings, redial a system open to all countries and peoples, designed to bring together peoples on the basis of brotherhood and cooperation.

Excellencies, In the name of God, the God which animates the Universe and the hearts of the righteous: make sure that this war began for personal interests of a few powerful to be sedated, which these wars permanently cease, and restore peace in those exhausted and tortured countries.
